

## American Sentinel Comprehensive Graduate Book List

**Custom textbooks:** ASU has converted some of its textbooks into a custom book, which is simply a book with ONLY those chapters and material needed for a course. Often textbooks contain more material than is needed in a specific course. Under faculty direction, the publisher reprints, on demand, only that material which is needed for the course, and packages it in a lower cost, soft cover. Look for the \* next to the course name to determine if a custom textbook has been created. **Custom textbooks can only be purchased from EdMap.**
