

American Sentinel Comprehensive Undergraduate Book List

CUSTOM TEXTBOOKS: ASU has converted some of its textbooks into a custom book, which is simply a book with **ONLY** those chapters and material needed for a course. Often textbooks contain more material than is needed in a specific course. Under faculty direction, the publisher reprints, on demand, only that material which is needed for the course and packages it in a lower cost, soft cover. Look for the **asterisk (*)** next to the course name to determine if a custom textbook has been created. **Custom textbooks can only be purchased from EdMap.**

ACCESS CODES: In addition to purchasing a textbook, some courses do require that you purchase an Access Code. The courses requiring an Access Code are highlighted in **blue** and can only be purchased from EdMap.
