What it means

10-20

You're open to the idea of continuing your education but perhaps a bit uncertain of the actual benefits an advanced degree could bring your way. Or, maybe you're just unsure about where to begin, or how to juggle the multiple responsibilities of school, life, and work. The first step is to talk with your leadership team: ask what changes or requirements they foresee at your facility and how you could start preparing. The second step is to speak with your family: start discussing your thoughts on going back to school and what implications (both positive and negative) your studies could have for them. The last step is to seek out more information on American Sentinel University's website (www.americansentinel.edu) or contact one of our admission advisors directly at 866.922.5691.

21-35

You understand how an advanced degree could benefit the nursing profession and your career, but maybe you need a little more information – or inspiration. Your next step should be to seek out other nurses who are earning, or have earned their degrees; ask them about the challenges and rewards of going back to school. Don't know any nurses to ask about this? No worries, you can turn to an online community, such as www.NurseTogether.com, which has forums, articles and experts. Or you can read about nurses who earned their degrees with American Sentinel University at www.americansentinel.edu/blog/tag/success-stories/. Next, consider speaking to one of American Sentinel University's admissions advisors. Our advisors are friendly, nurturing and truly concerned about what's best for you. Call 866.922.5691 or email admissions@americansentinel.edu.

36-50

You have a clear idea about the benefits of earning an advanced nursing degree and you're ready to jump in! You now need to speak to your employer, your family, and find the school that best suits your needs. In talking to your employer, be sure to ask about what kind of financial support your facility may offer. Then get started by looking at American Sentinel University, a nursing school that provides you the personal support, quality curricula, first-rate faculty, flexibility, and affordability you need. American Sentinel University also boasts friendly advisors who work with you one-on-one from your first call through to graduation and a flexible, online format that helps you manage your studies around your work, family and personal life. Call 866.922.5691 or email admissions@americansentinel.edu for more information.

About American Sentinel University
